

COURSE OUTLINE

COBIT® 2019 Foundation (Exam Included)

DURATION	LEVEL	TECHNOLOGY	DELIVERY METHOD	TRAINING CREDITS
3 Day(s)	Foundation	Governance	In Class/ Virtual	N/A

Course Overview

COBIT® is a framework for the enterprise governance and management of information and technology (I&T) that supports enterprise goal achievement. This three-day course highlights the concepts, models and key definitions of the COBIT framework and helps prepare learners to take the COBIT 2019 Foundation Exam.

Prerequisite

- None.

Audience

This Foundation Course is intended for current COBIT 5 Foundation Certificate holders as well as those new to COBIT who are interested in achieving the latest foundation certificate.

Course Outcomes

You will be able to:

- Recognize the context, benefits and key reasons COBIT is used as an information and technology governance framework.
- Recognize the descriptions and purposes of the COBIT product architecture.
- Recall the alignment of COBIT with other applicable frameworks, standards and bodies of knowledge.
- Understand and describe the governance “system” and governance “framework” principles.
- Describe the components of a governance system.
- Understand the overall structure and contents of the Goals Cascade.
- Recall the 40 Governance and Management Objectives and their purpose statements.
- Understand the relationship between Governance and Management Objectives and Governance Components.

Topics
