

COURSE OUTLINE

Course Name: Agile Project Management (AgilePM® V3) Foundation & Practitioner

DURATION	SKILL LEVEL	DELIVERY METHOD	TRAINING CREDITS	TECHNOLOGY
5 Days	Foundation & Practitioner	In Class/VILT	N/A	Project Management

Course Overview

The Agile Project Management (AgilePM® V3) Foundation and Practitioner course provides delegates with a structured understanding of agile project management principles, processes, roles, communication strategies, risk management, quality assurance, and delivery practices.

This certification pathway is suitable for professionals who want to establish or advance a career in Agile Project Management. It supports both Foundation-level understanding and Practitioner-level application of agile project management methodologies in real-world project environments.

Prerequisites

There are no formal prerequisites for the AgilePM® Foundation examination. Delegates progressing to Practitioner level should have passed the Foundation-level exams.

Who Should Attend this Agile Project Management (AgilePM® V3) Certification?

This certification is ideal for professionals involved in agile project delivery or those looking to establish or advance a career in Agile Project Management. It is particularly suitable for:
